CARDS: FEATURED WORK

- Temporarily named “Project 01” and “Project 2”
- One will be a featured visual project, and the other will be a featured audio project
- Some of the sketches included have three cards drawn, however for ease of accessibility between mobile and desktop, I am thinking I will build just two cards to begin.

Additional notes can be read in the hand-drawn sketches.

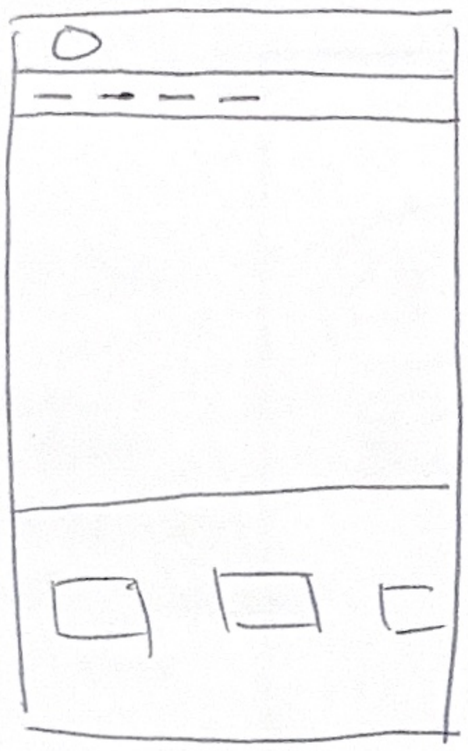

Index.html code included

I checked ON for including a README file

CALLA LILY CREATIVE — WIREFRAME — DESKTOP

(MAC BOOK PRO 1440 x 900 PX)

NOTES:

- very similar to mobile
- biggest difference is navigation bar
- nav bar blends into the background colour, text is contrasted + clickable
- 'contact' in nav bar
- hero still takes up most of the landing, but cards are visible to scroll to.
